ORION* Total Ionic Strength Adjustment Buffer (TISAB), Thermo Scientific

Supplier: Thermo Orion

Find Similar Items in Product Category Standards, pH

Supplier: Thermo Orion

Reagent TISAB II eliminates the sample adjustments and corrections necessary in determinations of fluoride ion in drinking water. TISAB II is used in conjunction with fluoride ion selective electrodes. Also useful in all fluoride analyses where pH and total ionic strength vary among samples. Supplied in a 3.8L (1gal.) plastic bottle.

TISAB III is a more concentrated formulation of TISAB II and comes in a 0.5L (1pt.) bottle.

Description	Thermo Scientific No.	VWR Catalog#	Unit	Your Price	Qty
