

## Manufacturer Instrument Certificate

Date: January 3, 2013  
Manufacturer: Advanced Sensor Technologies, Inc. ("ASTI")  
Factory Location: U.S.A.  
Item(s): 3TX family of transmitters for electrochemical measurement

ASTI confirms that any delivery by us corresponds to the purchase order and that it was manufactured according to our technical requirements and quality control measures. The necessary supervising measures were taken during purchase and manufacturing, and the delivery shall fulfill EG - regulation 1207/2001.

## Statement of Warranty

ASTI warrants to Buyer for a period of twenty-four (24) months from the time of shipment, equipment will be free from defects of design, material and workmanship. If any such defect occurs during this period, Buyer may follow the Return Material Authorization ("RMA") procedure described on the ASTI website. If ASTI issues an RMA, Buyer shall return the equipment to the ASTI Factory Location at Buyer's expense for evaluation. If the ASTI Factory determines that a defect exists, the equipment will be replaced or repaired under warranty. ASTI's sole obligation in the event of a defect shall be limited to alteration, repair, or replacement of the equipment at ASTI's sole discretion. If no defect is found after evaluation, the equipment will be either returned to Buyer or disposed of, at the Buyer's preference.

ASTI shall not be liable for damage or wear to equipment caused by abnormal conditions or improper use. In no event shall ASTI be liable for consequential or incidental damages.
